

SAFE STREETS PROJECT

WE'RE TAKING BACK FREE SPEECH

WHAT IS THE SAFE STREETS PROJECT?

The Safe Streets Project is a peaceful volunteer effort using the **VIOLENT.SOLUTIONS** technology engine that allows individuals to quickly, securely, and privately identify and flag violent street rioters for prosecution.

HOW DOES THE SAFE STREETS PROJECT WORK?

Antifa and Black Bloc rioters on the streets can be safely and anonymously referred to prosecution and convicted by the work of decent men and women in the street who use our digital platform to submit intelligence reports, images, video, and more information where it is cross-referenced using facial recognition and other technology.

WHO ARE THE SAFE STREETS PROJECT TEAM?

Our core team consists of senior military, threat intelligence, business leaders, technical, S.W.A.T. and private military contractor professionals determined to use their deep convictions and connections to put an end to violent Antifa riots and associated crimes against decent men and women who believe in free speech in the United States.

WHERE IS THE SAFE STREETS PROJECT OPERATING?

Peaceful users of our innovative mobile platform are located and operating across the entire breadth of the United States to submit reports on local Antifa and Black Bloc activities and plans in order to disrupt riots, identify leaders and participants, and ensure lawful justice is engaged.

WHY AM I NEEDED AT THE SAFE STREETS PROJECT?

"When bad men combine, the good must associate; else they will fall one by one, an unpitied sacrifice in a contemptible struggle." Edmund Burke's powerful words are even more crucial today as Antifa and Black Bloc rioters openly declare war on free speech. They hurt innocent people. They now conduct weapons and explosives training,

Don't fall alone. Help the Safe Streets Project take back free speech.
